Sermon Response

In the passage today, Fred highlighted Jesus touching the leprous man before healing him. What does it mean to you to know Jesus touched this man when no one else would?

What do you think it meant to the leprous man to be touched?

Would what we know about Jesus change if He healed the man first, then touched him? If so, what would change?

If you are struggling with loneliness, what does it look like to invite Jesus into your loneliness?

If you aren't struggling with loneliness, do you know someone who might be? What would it mean to them for you to reach out and invite them to connect with you in some way?

Is there anything stopping you from reaching out to someone today? If not, give it a try. Reach out to someone you've been missing.
