Questions to consider:

1. How did you learn about sex? Did your parents talk to you about sex? If the story isn't too traumatic, share your "birds and the bees" talk your parents had with you. Unfortunately, these are usually very funny and awkward stories.
2. If you have older kids, how did you talk to your kids about sex? When did they start asking you questions?
3. Do you think the sexual relationship between husband and wife is a good indicator of the health of the marriage? Explain your answer to your group.
4. Do you believe God is concerned about your sex life? Why?
5. Do you wish you knew more about sexual intimacy? To whom do you intend to go to obtain this information?
