

## **Sermon Response Questions**

I used the term, blessed to be a blessing, often in this message. What does this mean to you?

How has God blessed you?

How can you share those blessings with others?

For some background information, read Exodus 32. There you will see the transition from a kingdom of priests to a tribe of priests – the Levites. I believe the sin the nation of Israel committed is still having consequences today. Most people see ministry as a job to be done by a small group of people instead of everyone. What would be different if the sin seen in Exodus 32 never happened? How would church be different today if everyone saw themselves as a priest?

List 3 things you think this church could do to be a blessing to the Oakley community around us. (Leaders share the best of these ideas with me.)
